

RBC Dexia Investor Services Launches *Investment Analytics - Interactive*: New Web Based Portfolio Analysis

Toronto, May 17 2011 – RBC Dexia Investor Services has launched *Investment Analytics - Interactive*, a new web-based portfolio analysis tool. This will enable RBC Dexia's institutional clients to individually control portfolio analysis to assist them in making relevant, informed and timely investment decisions.

Investment Analytics - Interactive is a flexible fund analytics tool — empowering clients with the flexibility to create and customise their own portfolio insight using timely and comprehensive data. Built around RBC Dexia's Risk and Investment Analytics' traditional end-to-end servicing, clients will enjoy an indispensable control of fund information through a broad range of fund analysis capabilities.

"This commanding service transforms the way our clients can access the data they want, how they want it and when they want it," said Fay Coroneos, Global Head of Risk and Investment Analytics for RBC Dexia. "*Investment Analytics - Interactive* is robust, intuitive and designed to facilitate the integration of our client's data within their business processes in a flexible, easy-to-use environment."

RBC Dexia is one of Canada's largest providers of institutional risk and investment analytics services and continues to grow and evolve these sophisticated solutions to meet the needs of our clients and those of a changing marketplace—ensuring that they are relevant and meaningful.
